OFSOA private Facebook group is intended for sharing information pertinent to our organization and for the benefit of its membership. Members may also use this group as a quick communications and networking tool to complete projects subject to approval by the group moderators.

It is not the intent of this policy to unduly limit member access, however, guidelines and expectations surrounding their use are necessary as there are liabilities inherent in such use. When any member is using organization-provided computers or cell phones or is representing the organization via this social networking activity, that individual is expected to represent the organization in a professional and positive light.

OFSOA wishes to use its private Facebook group exclusively to its advantage, preventing and minimizing any negative outcomes. This includes ensuring that all members will be free from harassment and unprofessional behavior when utilizing or consuming this social media; therefore, members authorized for its use must abide by all applicable laws (including copyright) and ethical considerations.

Posting

Members may use OFSOA's private Facebook group to conduct OFSOA business, as long as such use is authorized and complies with the organization's policies.

Ownership

As the OFSOA private Facebook group is set up for business purposes, the OFSOA has the right to review, edit, and delete content associated with the account. OFSOA will have access to information associated with the account such as the username and password, and any content associated with the account will be considered the property of the organization. If a member separates from OFSOA, access to the OFSOA private Facebook group is terminated.

Monitoring

It will be the responsibility of the Communications Chair, Vice President or their designees to monitor the OFSOA private Facebook group. Monitoring will include adding verified active members, reviewing and approving all submitted posts, and ensuring members are not acting in any manner that is considered prohibited.

Protection

Social networking sites collect profile information for advertising opportunities and criminal reasons. Phishing (e-mail messages asking for username and passwords, etc.) and

spamming are two downsides. Never click on links asking for personal or confidential information. Heed security warnings and pop-ups. Use of these sites may mean more SPAM sent to your e-mail account. If possible, disable the ability of others to post HTML comments to your home page. When accessing these sites, use caution when you see a posting or link that looks suspicious; when in doubt, delete it. Viruses and spyware may damage the organization's operating system, compromise data, or expose your privacy and that of others you communicate with via e-mail and social media sites.

Be aware that others may piece together personal information for identity theft purposes. Be prudent in making comments or posts which reveal yours or others' travel plans or divulge other safety-sensitive and private information.

Members expressly acknowledge that you assume all responsibility related to the security, privacy, and confidentiality risks inherent in sending or posting any content over the internet. Although content will be monitored and approved for posting, OFSOA does not control third-party sites and the internet over which you may choose to view or post content from. OFSOA does not make any warranties, express or implied, against interception or compromises to your information related to participation in the OFSOA Facebook Group.

Prohibited Conduct

Behavior and judgment in an electronic environment should mimic behavior in a physical setting. Members are expressly prohibited from posting content that is malicious, abusive, threatening, intimidating, coercing, profane, disruptive, discriminatory, or harassing. Defamatory statements are prohibited, and members should be aware they are personally responsible for the legal consequences of such statements.

Nothing in this policy should be interpreted as limiting a member's right to engage in legally protected speech or other activity. Failure to adhere to these standards and to use appropriate protocols will lead to further corrective action, up to and including termination.
